THE Governor's message touch ing certain railroads and receivers is printed elsewhere.

THE House of Representatives wants the Governor to send the militia to look up Barmore, or ascertain what has become of him.

THE fourteenth amendment to the constitution of the United States is being enforced in Georgia, and a large number of civil officers, who are ineligible under it, have been turned out.

JUDGE PELHAM, at the recent term of the Circuit Court for Shel by county, Ala., decided that the Alabama Legislature is an illegal body and Gov. Smith an unlawful officer. Judge Pelham is a member of the Radical party. So much for the congressional plan of reconstruction.

In the Criminal Court of the District of Columbia vesterday. District Attorney Carrington, by instruction of Attorney General Evarts, entered a nolle prosequi in the cases of Jeff. Davis and John C. Breckinridge. This ends prosecutions so far as these two gentlemen are concerned.

ATTORNEY GENERAL EVARTS YESterday issued a circular of instructions to District Attorneys directing that all suits for treason be dismissed. Thus while Congress is pottering over the right of the right of the President to issue a general amnesty, the Attorney General settles the matter by directing that all suits against parties for treason be dismissed.

THE State of Arkansas is in terrible condition. If the present state of things is permitted to continue, the prospects of her people are blighted for the year. THE Washington correspondent of the Cincinnati Commercial states that when the Sue Murphy claim was up in the Senate Saturday. "Mr. Fowler, of Tennessee, declared with some excitement, that if the claims of Southern loyalists were not recognized by the government every man, woman and child in the South would rise up and repudiate the national debt. He said the to tal amount of these claims would not exceed \$30,000,000." Mr Fowler is certainly mistaken in his estimate of the amount of the "claims of Southern loyalists." The amount of such claims reported to the General Claim Commissioner for Tennessee already foots up near ly \$6,500,000, and whenever there the governmen will pay these claims, this amour can be increased to \$25,000,000 or

When the States united in 178 under the present constitution, i was declared that no State should "make anything but gold and silyer a tender in payment of debts. The clause empowering Congress " to borrow money on the credit of the United States" cannot be cor strued to give the Federal govern ment authority to establish any thing but coin as money in the dis charge of debts. Gold however has gone out of vogue. An exchange says a ger tiemen well known in financial and political circles, recently on a visit to New York, tells a story which may serve to indicate the acquaintgeneration have with gold-thanks to our Radical rulers. One evening he was traveling in a railroad car, and took from his pocket a three dollar gold coin and a fivecent piece, which in the dark he gave the conductor for six cents. On reaching his botel he found in his pocket instead of the three-dollar piece, which he usually earried as luck money, a single cent. Immediately perceiving his mis take, he went to the depot and asked had the superintendent received from a conductor a \$3 gold piece, detailing at the same time the circumstances of his loss.- He was told such a piece had been paid in, but not by the conductor. It appears that that official, not liking the look of the coin, paid it away before the British Parliament for in change to a boy, who in his turn the establishment of a similar syswent to the depot complaining that tem in England, he refers to the efthe conductor had given him a forts made here for a like object.
